

# MATMAK

ADVANCED PRECUT SOLUTIONS

**MATMAK** is a new and innovative pre-cut software specially developed for cutting **paint protection films**.

Using computer-aided design, the **MATMAK** software solution allows installation professionals to select specific pre-cut film templates to be applied to specific interior/exterior vehicle parts for maximum protection.

With **MATMAK's** precise pre-cut templates, you're able to achieve a superior fit, reduce installation time, and save money by reducing film waste.

**Installations have just become easier with MATMAK.**

**15,000+ Patterns Available**  
*New patterns added monthly*

**60+ Automotive Manufacturers**  
*and growing*

**Online Platform and Database**  
*No USB Key required*
